

## OVERVIEW

*The MASE Business Partnerships program strengthens the ties between MASE members and their collaborative partners in the public, private and non-profit sectors. Our goal is to advance the field of special education and improve student outcomes with an emphasis on proven, evidence-based practices.*

Minnesota Administrators  
for Special Education

## Business Partners Program Guide

Minnesota Administrators for Special Education  
*MASE builds strong leaders who work on  
behalf of students with disabilities.*

## Program Benefits

Minnesota Administrators of Special Education support learners in the areas of Special Education, English Learners, Title I, II, and III, Health Services, Section 504, Early Childhood Education, and more. Over 130,000 students alone are receiving special education services.

Minnesota Administrators of Special Education employ thousands of staff state-wide who use products and services that support student outcomes.

Minnesota Administrators of Special Education have access to resources intended to support students in the general education curriculum as well as through specially designed instruction. We make curriculum, product, and services decisions!

Minnesota Administrators of Special Education have a very close network. Many decisions for using specific products and services begin by recommendations to colleagues.

MASE members want to collaborate with Business Partners in the development of quality evidence based products and services. We have a vested interest in our partners' success as it ensures we have tools to support our learners.
